## OBJECTIVE

Motivated B.Tech Computer Science student seeking internship or entry-level opportunities in **cloud security, blockchain development, or backend engineering** — eager to apply hands-on experience in decentralised systems and cloud infrastructure to real-world challenges.

## ABOUT ME

Second-year B.Tech Computer Science student specialising in Cloud Technology and Information Security — building at the intersection of networking, security, and decentralised infrastructure. Passionate about blockchain, Web3, and the crypto ecosystem for over 6 years. Current focus: cloud infrastructure, system security, and decentralised applications.

## TECHNICAL SKILLS

C

Java

SQL

DBMS

HTML

JavaScript

Node.js

Solidity

Blockchain

Web3

Cloud Computing

AES-256

MySQL

Git

## EDUCATION

### Sandip University, Nashik

B.Tech — Computer Science & Engineering · Cloud Technology & Information Security

2024 – 2028

### Podar International School (ICSE), Nashik

Grade 1 – 10

Up to 2024

## PROJECTS

### CredChain

Enter a college PRN and date-of-birth to fetch the result from the college portal, then upload it permanently to the Avalanche blockchain via a Solidity smart contract — tamper-proof credential storage on the Fuji testnet.

**Tech:** Java · Solidity · Avalanche Fuji · HTML · JavaScript · Railway

<https://dhanrajgupta.xyz/credchain-issue>

### GradeVault

Full-stack academic portal with role-based access for students and faculty. Students view CIA-wise marks and performance analytics; faculty manage and update records.

**Tech:** Java · MySQL · Render · Cloudflare Pages · Railway

<https://dhanrajgupta.xyz/GradeVault-index>

### SecureVault

Full-stack encrypted secrets manager using client-side AES-256 encryption — the server never sees your data.

Integrates MetaMask and the Ethereum Sepolia testnet to create an immutable on-chain audit trail for every secret saved or updated.

**Tech:** Node.js · MySQL · AES-256 · MetaMask · Ethereum Sepolia · Web3

## **CERTIFICATIONS**

---

- Introduction to Generative AI — StudiO by Simplilearn
- Introduction to Security Principles in Cloud Computing — Google

## **LANGUAGES**

---

English

Hindi

## **HOBBIES & INTERESTS**

---

- Blockchain Research & Web3 Exploration
- Airdrop Hunting & Crypto Ecosystems
- Running Validator Nodes & L2 Architecture
- Open Source Development
